## Alpine Home Media – Client Testimonials

THE BROOKS FAMILY

February 6, 2008

John Vitiello  
Alpine Home Media Inc.  
66 Autumn Drive  
Tappan, NY 10983

Dear John,

We just wanted to drop you a quick note regarding the projects we have worked on with Alpine. Its so rare in life that a person's expectations are met or exceeded. But, as it relates to the projects Alpine Home Media has designed and implemented for our family, exceeding our expectations would be an huge understatement . . .

The home theater Alpine designed and implemented for our family is truly a work of art unto itself – whether its a concert or a cartoon, a movie or a video game, Alpine has created an unparalleled entertainment experience for all of us. And we couldn't be more thankful for the truly magical experience.

But equally impressive to us is the ease of use. Both we and our 7 and 5 year old children have found the Alpine system easier to use and understand than a regular plasma TV. So it was only natural to expand the system Alpine created for us to our family room into the preexisting systems Alpine had created for us. Us, our children, and our guests have all been able to access with ease not just television and DVD,s, but also our ever growing collection of pictures, mp3's and the like. One of our favorite touches was Alpine's integration of our internet radio service, Pandora, into our system, with the same ease of access as a regular old radio station. A very nice touch with that. We know we've only scratched the surface of Alpine's capabilities. But we couldn't be happier with the results.

John, we have no doubt we will have the pleasure of working with you and Alpine again. In our environment of ever increasing consumer technology, Alpine truly has a gift - not just for top quality implementation - but for making the most sophisticated technology easily and intuitively accessible.

Until then, our very best wishes.

Very truly yours,

# Alpine Home Media

We were having our family room professionally decorated and wanted a home entertainment system installed while the work was being done. One of our more selective friends was working with John Vitiello from Alpine Home Media and suggested we give him a call. We are glad we did. John came over, surveyed the project and provided us with a very thorough proposal that really hit home with what we were trying to accomplish. When it came time to do the work, John's team was always on time, neat and professional - but that's nothing compared to the final result. The system is everything we had hoped for and more. It sounds great, looks fantastic and fits the room wonderfully. We couldn't be happier and we would certainly recommend John and Alpine Home Media to all our friends and neighbors.

- **Lisa & Mitch G, Closter, NJ**

When we decided to expand our family room, we knew the home theater would be the focal point of the room. Our contractor suggested we contact John of Alpine Home Media. After an initial discussion, John visited us, reviewed the contractor's plans and designed a system to meet our needs. We found him to be most knowledgeable, capable and reliable. Our system works beautifully...thank you, John.

- **Marilyn and Elliot Gorlin, River Vale, New Jersey**

Alpine Home Media did a great job outfitting my home theater system. I was most pleased with their expertise, knowledge of acoustic design and getting me all the features that I wanted at a competitive cost. John V did an excellent job from concept to final installation and importantly kept me informed at each stage of the project. I would certainly recommend them to others. - **The Anderson Family**

Dear John - We are very pleased with the Home Theatre that you installed. Your workmanship showed in the final result. We couldn't be happier and we will recommend your services to all of our friends and neighbors. Thank you very much.

- **The Ciaramella Family**

When we decided to purchase a new construction home, one of the first things we planned to do was to build a home theater. John helped us throughout the year to plan and design our room, paying close attention to our personal expectations and budget. His professionalism and customer service far exceeded our expectations. But most of all, the finished product speaks for itself. Family and friends are blown away by the overall appearance, picture quality, and sound that our system produces. We couldn't be happier.

- **Jared & Stefanie Cohen, Cortlandt Manor, NY**
